IEA Bioenergy Task 39 Newsletter #53

The latest Newsletter (#53) from IEA Bioenergy Task 39 is online on their Website. This seasonal issue features a lead article on "Biofuels Production and Consumption in Denmark: Status, Advances and Challenges" by Henning Jørgensen and Sune Tjalfe Thomsen, Denmark's representatives to the Task.

It also includes a summary of Task 39's second business meeting of the 2019-2021 triennium in Stockholm in conjunction with Sweden's 2019 Advanced Biofuels Conference held 17-19 September and Task's recent publications progress and information dissemination activities.

The newsletter closes with a summary of some recent reports and news articles of interest to biofuels stakeholders.
